UNIVERSITY COLLEGE, LONDON.

PROCEEDINGS

AT THE

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

ON WEDNESDAY, 22ND FEBRUARY, 1871:

REPORT OF THE COUNCIL,

FINANCIAL STATEMENTS,

AND

OTHER DOCUMENTS.

LONDON:
PRINTED BY TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET.
1871.

OFFICERS OF THE COLLEGE.

President.—GEORGE GROTE, Esq., D.C.L., LL.D., F.R.S.
Vice-President.—The Rt. Hon. LORD BELPER, LL.D., F.R.S.
Treasurer.—*SIR FRANCIS H. GOLDSMID, Bart., Q.C., M.P.

COUNCIL.

THE PRESIDENT.	THE VICE-PRESIDENT.	THE TREASURER.
James Booth, Esq., C.B.	Charles Zachary Macaulay, Esq.	
George Buchanan, Esq., M.D., F.	Timothy S. Osler, Esq., LL.B., F.	
William Dougal Christie, Esq., M.A.	*Augustus Prevost, Esq., B.A.	
Herbert H. Cozens-Hardy, Esq., LL.B., F.	Richard Quain, Esq., F.R.S.	
The Hon. George Denman, M.A., Q.C., M.P.	*John Francis Rotton, Esq., M.A.	
*Edward Enfield, Esq.	The Rt. Hon. Sir Edward Ryan, M.A.	
Edwin W. Field, Esq.	*Samuel Sharpe, Esq.	
*Robert Nicholas Fowler, Esq., M.A., M.P., F.	*John Storrar, Esq., M.D.	
*Julian Goldsmid, Esq., M.A., M.P., F.	Theodore Waterhouse, Esq., LL.B., F.	
*James Chisholm Gooden, Esq.	Frederic John Wood, Esq., LL.D., F.	
John Hodgkin, Esq.		

* *Members of the Committee of Management.*

AUDITORS.

Alfred Tylor, Esq.	William Burnley Hume, Esq.
Leonard Field, Esq., B.A., F.	Edward John Nettlefold, Esq.

SENATE.

President.—SIR FRANCIS H. GOLDSMID, Bart., Q.C., M.P.
Vice-Presidents.—JAMES BOOTH, ESQ., C.B.; EDWARD ENFIELD, ESQ.

Faculties of Arts and Laws and of Science.

Arts and Laws.	DEAN.—T. Hayter Lewis, F.A.S., F.I.B.A.	Professor of Architecture.
	VICE-DEAN.—G. Carey Foster, B.A., F.R.S., F.,	Professor of Physics.
Science.	DEAN.—Alex. W. Williamson, Ph.D., F.R.S.	Professor of Chemistry and Practical Chemistry.
	VICE-DEAN.—G. Croom Robertson, M.A.	Professor of Philosophy of the Mind, and Logic.
Sheldon Amos, M.A.		Jurisprudence.
Edward Spencer Beesly, M.A.		Ancient and Modern History.
C. P. Brown, Esq.		Telugu.
J. W. Willis Bund, M.A., LL.B.		Constitutional Law and History.
J. E. Cairnes, M.A.		Political Economy.
Charles Cassal, LL.D.		French.
Robinson Ellis, M.A.		Latin.
George Fuller, Esq., C.E.		Engineering.
Theodor Goldstücker, Ph.D.		Sanskrit.
Robert Edm. Grant, M.D., F.R.S.		Zoology.
Adolph Heimann, Ph.D.		German.
Olaus Henrici, Ph.D.		Mathematics.
W. Alexander Hunter, M.A.		Roman Law.
Thomas Hewitt Key, M.A., F.R.S.		Comparative Grammar.
Henry Malden, M.A.		Greek.
Rev. D. W. Marks		Hebrew.
Henry Morley, Esq.		English Language and Literature.
John Morris, Esq., F.G.S.		Geology and Mineralogy.
Daniel Oliver, Esq., F.R.S.		Botany.
Charles Rieu, Ph.D.		Arabic and Persian.
J. Burdon Sanderson, M.D., F.R.S.		Practical Physiology and Histology.
Wm. Sharpey, M.D., LL.D., F.R.S.		Physiology.
Signor G. Volpe		Italian Language and Literature.

Faculty of Medicine.

DEAN.—Sydney Ringer, M.D., F.,	Professor of Materia Medica and Therapeutics.
VICE-DEAN—J. E. Erichsen, Esq.,	Professor of Clinical Surgery (Holme).
H. Charlton Bastian, M.D., F.R.S., F.	Pathological Anatomy.
W. H. Corfield, M.B.	Hygiène and Public Health.
George Viner Ellis, Esq.	Anatomy.
Wilson Fox, M.D., F.	Clinical Medicine (Holme).
Robert Edm. Grant, M.D., F.R.S.	Comparative Anatomy.
W. M. Graily Hewitt, M.D., F.	Obstetric Medicine.
Sir Wm. Jenner, Bart., M.D., F.R.S.	Clinical Medicine.
T. Wharton Jones, Esq., F.R.S.	Ophthalmic Medicine and Surgery.
John Marshall, Esq., F.R.S.	Surgery and Clinical Surgery.
Henry Maudsley, M.D., F.	Medical Jurisprudence.
Daniel Oliver, Esq., F.R.S.	Botany.
J. Russell Reynolds, M.D., F.R.S., F.	Medicine and Clinical Medicine.
J. Burdon Sanderson, M.D., F.R.S.	Practical Physiology and Histology.
Wm. Sharpey, M.D., LL.D., F.R.S.	Anatomy and Physiology.
Sir Henry Thompson, M.B., F.	Clinical Surgery.
Alex. W. Williamson, Ph.D., F.R.S.	Chemistry.

School.

HEAD MASTER.—T. Hewitt Key, M.A., F.R.S.
VICE-MASTER.—E. R. Horton, M.A.

Secretary to the Council.—JOHN ROBSON, B.A.

UNIVERSITY COLLEGE, LONDON.

.....

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

WEDNESDAY, FEBRUARY 22ND, 1871.

THE RT. HON. LORD BELPER, *Vice-President,*

IN THE CHAIR.

Present Forty-nine Members.

The following Lists were taken as read:—

1. OF OFFICES VACATED.

President, Vice-President, Treasurer, seven Councillors, one Auditor.

2. OF MEMBERS WHO HELD THESE OFFICES.

President. GEORGE GROTE, Esq., D.C.L., LL.D., F.R.S.
Vice-President. The Rt. Hon. LORD BELPER, LL.D., F.R.S.
Treasurer. Sir F. H. GOLDSMID, Bart., Q.C., M.P.

Councillors. GEORGE BUCHANAN, Esq., M.D.; JULIAN GOLDSMID, Esq., M.A., M.P.; JOHN HODGKIN, Esq.; CHARLES Z. MACAULAY, Esq.; JOHN TYNDALL, Esq., F.R.S.; Sir GEORGE YOUNG, Bart., M.A.*

Auditor. HENRY SHARPE, Esq.

3. LIST OF NOMINEES FOR OFFICES.

MEMBERS PROPOSED.	PROPOSED BY
For President, GEORGE GROTE, Esq., D.C.L., LL.D., F.R.S. ..	THE COUNCIL.
For Vice-President, LORD BELPER, LL.D., F.R.S.	THE COUNCIL.
For Treasurer, Sir F. H. GOLDSMID, Bart., Q.C., M.P.	THE COUNCIL.

* Edward Romilly, Esq., deceased, completes the number of seven to be elected.

For Councillors,

George Buchanan, Esq., M.D., Fellow of the College (for re-election)	The Council.
William Dougal Christie, Esq., M.A.	James Heywood, Esq.
Julian Goldsmid, Esq., M.A., M.P., Fellow of the College (for re-election)	The Council.
John Hodgkin, Esq. (for re-election)	The Council.
Charles Z. Macaulay, Esq. (for re-election)	The Council.
Timothy Smith Osler, Esq., LL.B., Fellow of the College	The Council.
Richard Quain, Esq., F.R.S.	H. C. Bastian, Esq., M.D. Marcus Beck, Esq., M.S. Wilson Fox, Esq., M.D. Graily Hewitt, Esq., M.D. Sir W. Jenner, Bart., M.D. Joseph Lister, Esq., M.B. E. A. Parkes, Esq., M.D. J. R. Reynolds, Esq., M.D. Sydney Ringer, Esq., M.D. The Council.
The Hon. Henry Strutt, M.P.	The Council.

For Auditor,

E. J. Nettlefold, Esq.	The Auditors. The Council.

The Chairman announced that, as only the necessary number to supply the vacant offices of President, Vice-President, Treasurer, and Auditor had been proposed, the formality of a ballot was not in those cases required. He accordingly declared the Candidates for those offices duly elected.

The Chairman then appointed Mr. E. C. Dunn and Mr. N. E. Hartog to be the Scrutineers to superintend the ballot for Councillors; and he announced that the ballot would begin at once and continue for half an hour.

The Report of the Council was read by the Secretary.

The Statements of Receipts and Expenditure for the year ending August 31st, 1870, with other Financial Papers as audited, were presented.

On the motion of James Heywood, Esq., seconded by Henry Udall, Esq.,

Resolved unanimously,—That the Report be received; and that it be printed and circulated among the Members of the College.

The Scutineers then handed in their Report to the Chairman, who announced that the following gentlemen had received a clear majority of votes:—

Dr. Buchanan.
J. Goldsmid, Esq.
John Hodgkin, Esq.
C. Z. Macaulay, Esq.
T. S. Osler, Esq.
R. Quain, Esq.;

and he therefore declared them duly elected as Councillors.

The Chairman further stated that the Scutineers reported that W. D. Christie, Esq., and the Hon. Henry Strutt had received an equal number of votes, so that, as provided by the Bye Laws, it devolved upon him, as Chairman, to decide, by giving a second vote, on whom the choice of the Meeting had fallen; and he announced that he gave his second vote to Mr. Christie, whom he consequently declared to be duly elected a Member of the Council.

The names of the following persons nominated by the Council for admission as Life Governors of the College, in accordance with the 14th Section of the College Act of Incorporation, were then put by the Chairman to the Meeting *seriatim*, and all the Nominees were unanimously admitted.

"(a) *Former Students of the College, whether qualified for admission as Fellows or not, who have obtained distinction in any University (either English or Foreign), or have become distinguished in after life.*"

Adams, Ernest, Ph.D.
Allen, B. Holme, M.D.
Best, Palemon, M.B.
Blake, J. G., M.D.
Carpenter, Rev. J. E., M.A.
Clifford, Rev. J., M.A.
Edwards, W. T., M.D.
Ellis, Hon. Barrow Helbert.
Fitch, J. G., M.A.
Flower, W. H., Esq., F.R.S.
Graham, Charles, D.Sc.
Grimley, Rev. H. N., M.A.
Guthrie, Frederick, B.A.
Hackney, Wm., B.Sc.
Halley, Rev. Robert, M.A.
Hicks, John Power, M.A.
Irvine, J. P., B.Sc.
Jackson, E. Steane, M.A.
Jones, J. Talfourd, M.B.
Kisch, B., M.A., B.Sc.
Lean, W. S., M.A.
Magnus, Rev. P., B.A., B.Sc.
Martineau, Russell, M.A.
Prestwich, Joseph, Esq., F.R.S.
Reed, Charles, Esq., M.P.
Roscoe, Henry E., B.A., F.R.S.
Routh, Henry John, M.A.
Rushton, Wm., M.A.
Savage, Thomas, M.A.
Smith, Philip, B.A.
Smith, P. A., LL.B.
Smith, T. Starkey, M.D.
Taylor, Sedley, M.A.
Thomas, E. Wynne, M.D.
Thomas, W. Cave, Esq.
Thorowgood, J. C., M.D.
Todhunter, Isaac, M.A.

"(b) *Persons holding the rank of Emeritus Professor of the College.*"

Creasy, Sir E. S., M.A.
Donaldson, T. L., Ph.D.
Hoppus, Rev. Dr., F.R.S.
Walshe, W. H., M.D.

"(c) *Persons having special claims in consequence of benefits conferred upon or services rendered to the College.*"

His Grace the Duke of Argyll, K.T.
The Rt. Hon. Earl de Grey and Ripon, K.G.
The Rt. Hon. the Earl of Derby.
The Rt. Hon. Earl Granville, K.G.
The Rt. Hon. the Earl of Kimberley.
The Rt. Hon. Lord Ebury.
The Rt. Hon. Lord Houghton.
The Rt. Rev. the Bishop of St. David's.
The Rt. Rev. the Bishop of Exeter.
The Very Rev. the Dean of Westminster.
Rt. Hon. H. A. Bruce, M.P.
Rt. Hon. E. Cardwell, M.P.

Rt. Hon. W. F. Cowper-Temple, M.P.
Rt. Hon. Robert Lowe, M.P.
Rt. Hon. H. A. Layard.
Alcock, Sir Rutherford, K.C.B.
Anstie, James, B.A.
Atkins, T. De Courcy, B.A.
Bowring, E. A., Esq., C.B., M.P.
Bruce, Mrs.
Bywater, Ingram, M.A.
Cama, Dorabjee Pestonjee.
Carey, Sir P. S., M.A.
Charles, Arthur, B.A.
Collambell, C., Esq.
Dádhábhái Naoroji.
Duff, M. E. Grant, Esq., M.P.

Fisher, Richard, Esq.
Foley, J. H., Esq., R.A.
Franks, A. W., Esq.
Graves, Mrs. Amelia.
Graves, Rev. R. P.
Harley, George, M.D., F.R.S.
Herbert, E. G., LL.B.
Littler, R. D. M., B.A.
Lockyer, J. N., Esq., F.R.S.
Long, George, M.A.
Masson, David, M.A.
Morris, Mrs.
Poynter, E. J., Esq., A.R.A.
Ralston, W. R. S., Esq.
Ramsay, A. C., LL.D., F.R.S.
Rogers, J. E. Thorold, M.A.
Ruskin, John, M.A.
Russell, J. A., LL.B., Q.C.
Seeley, J. R., M.A.
Sylvester, J. J., M.A., F.R.S.
Taylor, Tom, M.A.
Tylor, E. B., Esq.
Wadeson, E. W., Esq.
Williams of Kars, K.C.B., Bart., Gen. Sir W F..

"(d) *Persons distinguished in Literature, Science, or Art.*"

Airy, G. B., M.A.
Browning, Robert, Esq.

"(e) *Persons distinguished in public life or for their services in the cause of education.*"

Brown, Rev. W. Haig, LL.D.
Davis, Sir J. F., Bart.
Forster, Rt. Hon. W. E., M.P.
Göschen, Rt. Hon. G. J., M.P.
Griffith, Rev. W. H., M.A.
Hobhouse, Arthur, M.A., Q.C.
Maxwell, Sir W. Stirling, Bart.
Payne, Joseph, Esq.
Roby, H. J., M.A.
Rogers, Rev. W., M.A.
Sabine, K.C.B., Gen. Sir Edward, P.R.S.
Shields, Wm. Andrew, Esq.
West, E., Esq.
West, Rev. W. D., D.D.

"(f) *Persons who in respect of their descent from or connexion with deceased benefactors, or other persons having rendered services to the College, may be considered to represent any such deceased benefactor or other person or his family.*"

Acworth, Rev. W. P., M.A.
Amory, J. H., Esq., M.P.
Booth, Alfred, Esq.
Fry, Theodore, Esq.
Harrison, Henry, Esq.
Mylne, J. E., Esq.
Routh, Thos. Alfred, Esq.
Sutton, J. M., Esq.
Temple, Josiah, Esq.

Mr. N. E. Hartog, B.A., Fellow of the College, then rose to move the following resolution, of which he had given notice :—

"That the Council be requested to take steps for the purpose of promoting social intercourse among the Students of the College ;"

but the number of Members present having been reduced below thirty

the Chairman explained that Mr. Hartog could not now move any resolution. Mr. Hartog was, however, allowed by the Meeting to make some observations on the subject of his notice; and the Secretary gave explanations of the facts to which Mr. Hartog referred.

BELPER,
Chairman.

On the motion of John Hodgkin, Esq., seconded by William Dougal Christie, Esq.,

Resolved unanimously,—That the thanks of the Meeting be returned to the Right Hon. Lord Belper, for his kindness in presiding at this Meeting, and for his able, courteous, and impartial conduct in the Chair.

JOHN ROBSON,
Secretary.

REPORT OF THE COUNCIL.

I. SESSION 1869–70.

PUPILS AND FEES.

The entire number of Pupils during the Session was 1161, being an increase of 74 on that of the preceding Session. Of these, 667 were Students in the College, and 494 Pupils in the School. Of the Students, 283 belonged to the Faculty of Medicine, 118 being new Students: in the Faculty of Arts and Laws there were 384 Students, of whom 93 attended the Evening Classes; in this Faculty there were 254 new Students. The largest number of Boys in the School in any one Term was 419.

The Fees received (exclusive of those for Clinical Instruction) amounted to £17,120 9*s.* 6*d.*, being £1117 17*s.* more than in Session 1868–69. This sum consists of the following items:—Fees for attendance on Classes of the Faculty of Medicine, £4302 7*s.* 6*d.*; Fees for attendance on Classes in the Faculty of Arts and Laws, £4360 2*s.*, of which £280 5*s.* 6*d.* was on account of the Evening Classes; School Fees, £8458. The total payments to Professors, Teachers, and Masters amounted to £12,033 15*s.*, leaving £5086 14*s.* 6*d.* for the College portion, which was thus greater by £504 12*s.* 6*d.* than in the preceding Session. In addition to the above-stated amounts, the sum of £1952 17*s.* (being an increase of £314 14*s.* on the previous year) was received for Clinical Instruction in the Hospital, making a total of £6255 4*s.* 6*d.* paid by Students of the Faculty of Medicine in the Session. These Hospital Fees were surrendered by the Medical Officers for the benefit of the Charity, in accordance with their invariable practice.

SCHOOL.

The following extracts from the Report of the School Committee, presented to the Council on December 3rd, 1870, will give the necessary information respecting the state of the School:—

"The Committee rejoice to find that the Reports of the Masters attest the same satisfactory and flourishing condition of the School as they have welcomed in former Sessions. The discipline of the School continues to improve, as is shown by the steady diminution of entries in the Black Book; and the Committee believe that this improvement is greatly owing to the wholesome practice introduced by the present Vice-Master, of immediately making known any offence to the parents of the boy by whom it was committed. The general attention to study in the various classes appears to have been commendable, while the list of prizemen and successful students, both for external and for

school honours, is equal in number and quality to the standard of former years.

"The total number of pupils in the School has during the last few years been well maintained and steadily increasing; but the increase during the last year has been truly remarkable, and calls for the special congratulations of the Committee. The returns for the last three years, according to the form usually adopted in the School Report, will stand as follows:—

	1st Term.	2nd Term.	3rd Term.
1867–68.....	351	372	370
1868–69.....	364	365	377
1869–70.....	390	417	419

"But besides this triennial table, the Committee find in the Head Master's Report a comparative return of the average number of pupils during the last ten years; which return is so gratifying that they cannot refrain from embodying it in their present Report and thus giving to it a permanent place among the records of the Council.

"During the Session—

1860–61 the average number was	312
1861–62 the average number was	310
1862–63 the average number was	300
1863–64 the average number was	317
1864–65 the average number was	335
1865–66 the average number was	361
1866–67 the average number was	360
1867–68 the average number was	364
1868–69 the average number was	369
1869–70 the average number was	409

"This steady enlargement of numbers (and that, too, in an increasing ratio, notwithstanding the recent addition to the school fee) shows how much the conduct and teaching of the School are now appreciated, and cannot fail to stimulate the honourable exertions of the Masters. It is doubtless owing also in part to the enlarged space and improved accommodation and comfort provided by the College two years ago in the New South Wing."

"In consequence of the rapid augmentation of numbers, however, it is found that the accommodation furnished by the new building is already beginning to be fully tasked; and if the numbers during the second and third terms of the present Session prove to be as much above those now existing in the first, as they have been found to be in previous Sessions, the total space even as now enlarged will barely suffice for the wants of the School. The continued success of the School depends so obviously upon complete accommodation of this sort, that the Committee will not fail to advise the Council in case any deficiency should become evident in the future."

The Council are happy to report that the contingency contemplated in the last quoted paragraph appears likely ere long to become an accomplished fact, since the number of pupils in the School in Michaelmas Term was 442; and at this time the number is 500, indicating a rate of increase altogether unexampled in the previous history of the School.

The former pupils of the School who in the College Examinations

obtained Prizes and Certificates of Honours were the following :—Mr. Arthur Hibble Higgs obtained the English Essay Prize; Mr. Edward Melville Lynch, a moiety of the Andrews Classical Scholarship of £50, Third Certificate Senior English, Second Certificate Senior Latin, First Certificate Senior Greek (Prize last year); Mr. Edward Adolf Sonnenschein, a moiety of the Andrews Classical Scholarship of £50, Prize for Anglo-Saxon, the Early English Text Society's Prize, Prize Higher Senior Latin, Prize Senior Greek, Prize Higher Senior German, Prize Ancient History; Mr. Frederick William Frankland, the Andrews Entrance Exhibition of £30 for Mathematics and Physics, Prize Junior Physics, Prize Junior Latin, Second Prize Junior Mathematics; Mr. Abraham de Mattos Mocatta, Second Certificate Senior English, Second Prize Senior French; Mr. Julius Maurice Rodolf, Eighth Certificate English, Fourth Certificate Lower Senior Latin, Third Certificate Junior Mathematics; Mr. Walter William Rouse Ball, First Prize Higher Senior Mathematics, Fifth Certificate Chemistry; Mr. Thomas Arthur Tooke Hallowes, Third Certificate Architecture Fine Art, Second Year's Course, Second Certificate Construction, First Year's Course; Mr. Hyman Nathaniel Benjamin, Second Certificate Jurisprudence, Second Certificate Constitutional Law and History; Mr. Philip Herbert Carpenter, Gold Medal Chemistry; Mr. Henry Colgate, Third Certificate Junior Anatomy, Second Certificate Practical Physiology and Histology; Mr. Alfred William Harding, Fifth Certificate Medicine, Second Certificate Senior Practical Chemistry; Mr. Thomas Erat Harrison, Seventh Certificate Junior English; Mr. Bryan Courthorpe Leigh Hunt, Sixth Certificate Junior French; Mr. Joseph James Stansfeld, Sixth Certificate Junior French; Mr. Louis A. Lucas, Seventh Certificate Chemistry; Mr. William Murrell, Seventh Certificate Chemistry; Mr. Sidney Follett Osler, Seventh Certificate Chemistry; Mr. Bernard Mathias Simon Roth, Eighth Certificate Chemistry; Mr. Ebenezer James Sewell, Tenth Certificate Practical Chemistry.

EVENING CLASSES.

The total number of tickets issued during the Session was 245, a decrease of 92 from the number for Session 1868–69; the fees received amounted to £280 5*s.* 6*d.*, which was less by £82 13*s.* than the amount in the previous Session, and the number of Students fell from 120 to 93. To make this comparison accurate, however, it must be borne in mind that last Session the Law Classes were separated from the Evening Classes, technically so called; whereas in the previous Session, they were treated as included in those Classes, and the number of Students attending them in 1868–69 was 22, who paid fees amounting to £54. The Classes for Languages and for Mathematics still continue to be the best attended; while some of the Classes specified in the Prospectus have not been held for want of Students.

GENERAL FINANCES.

The surplus of receipts over expenditure for this Session is £257 9*s.* 2*d.*, notwithstanding a payment of £620 7*s.*, being the balance of the expense incurred in obtaining the College Act of Parliament, and the unusually large sum of £1234 11*s.* 5*d.* expended in house and furniture repairs, which is nearly £500 more than the corresponding expenditure in 1868–69. The Liabilities on the face of the account on August 31st, 1870, were less than at the close of the financial year in 1869 by £858 14*s.*

It is right that the Members should be reminded of the fact that the ordinary income of the College is still burthened with the sum of £1715 7*s.*, the excess of the cost of the South Wing over the subscriptions received for that object.

II. THE CURRENT SESSION.

The entries of Students up to February 22nd are as follows:—In the Faculty of Medicine, 260, of whom 76 are new students; in the Faculty of Arts and Laws, 311 (including 64 attending the Evening Classes), of whom 172 are new students: in the School, in Michaelmas Term, 442, of whom 109 were new pupils; in the present Term, 500, 103 being new pupils. Compared with the entries up to the same date last year, these returns show an increase of 21 in the Medical Classes, and a decrease of 32 in the Arts and Laws Classes, of which number 22 belong to the Evening Classes; in the School, an increase of 52 in the Michaelmas Term, and of 94 in the Current Term.

The decrease in the number of new Medical Students this Session is 8, and in that of new Arts and Laws Students 45.

III. THE YEAR FROM FEBRUARY 1870 TO FEBRUARY 1871.

NOMINATION OF LIFE GOVERNORS.

In their last Report the Council stated that they had postponed the nomination of Life Governors until a future General Meeting, when they hoped to be able, with the concurrence and approval of the Members, to make a large and valuable addition to their constituency.

It will be remembered that one of the objects which it was intended to secure by the College Act was, in the words of the preamble, to make provision "for permanently increasing the number of Members of the College;" and Clauses 14 to 17 of the Act prescribe the manner in which this object is to be effected.

The Council, deeply impressed with the importance of exercising as soon as possible the power thus conferred upon the Corporation, appointed a Committee to prepare a list of persons coming under any of the descriptions specified in the 14th Clause of the Act; and the Council refer with great satisfaction to the long list of eminent noblemen and gentlemen now submitted to the Members, as a proof that the labours of the Committee have not been in vain. The Council are happy to report that the acceptance by these persons of the proposal that they should be nominated for admission as Life Governors, has been accompanied in numerous instances by expressions of interest in the College, which prove how high is the estimation in which it is held by those who are acquainted with its history, and with the influence which it has exerted upon the progress of education.

The Council trust that the Members will approve the nominations that they have made on this occasion; and they believe that the accession of new Members thus obtained will prove of great advantage to the College by extending its influence and by making its objects and operations more widely known.

DEATH OF A MEMBER OF THE COUNCIL.

It is with deep regret that the Council have to report the death, in October last, of one of their oldest colleagues, Mr. Edward Romilly, a gentleman whose warm interest in the College continued unabated until the last, and whose sound judgment and large experience made his advice and cooperation of the greatest value to the Council. For many years he was one of the Vice-Presidents of the Senate, and in that capacity secured the confidence and esteem of the Professors.

COLLEGE PRIZES AND DISTINCTIONS.

The Joseph Hume Scholarship in Jurisprudence was awarded to Mr. J. Bourne Benson, B.A., of London. The Jews' Commemoration Scholarship was obtained by Mr. Charles Parsons, of Lewes. The Atkinson-Morley Surgical Scholarship was gained by Mr. Rushton Parker, of Liverpool, who obtained also the Liston Clinical Medal. The Filliter Exhibition in Pathological Anatomy was awarded to Mr. J. Pearson Irvine, of Lancaster. The Fellowes Gold Medals were awarded to Mr. J. Pearson Irvine and Mr. Alfred Henry Carter, of Pewsey. The Andrews Scholarship for Classics was divided equally between Mr. E. A. Sonnenschein (s) and Mr. E. M. Lynch (s), of London, and that for Mathematics by Mr. John W. Lord, of Birmingham. The Andrews Prize for Classics was awarded to Mr. Charles Parsons, of Lewes, and that for Mathematics to Mr. F. W. Frankland (s), of London. The Andrews Entrance Prize of £20 for Classics, was gained by Mr. F. D. Wheeler, of Norwich; that for Science by Mr. B. J. Leverson, of University College School; and that for English and other Languages by Mr. A. H. Spokes, of Amersham Hall School. The Medical Entrance Exhibition of £30 was awarded to Mr. Arthur Hullard; that of £20 to Mr. E. J. G. Langley; and that of £10 to Mr. B. A. Whitelegge.

DEGREES AND EXAMINATIONS FOR DEGREES.

The Degrees of the University of London taken by Students of the College since the date of the last Report have been as follows:—M.D., 6, of a total of 14 from 7 Medical Schools; M.A., 6, of a total of 9, of whom 1 proceeded from private study, the remainder from 4 Colleges; M.B., 7 (4 in the first division), of a total of 24 from 10 Medical Schools; B.S., 2 (both in the first division), of a total of 3 from 2 Colleges; B.A., 15 (all in the first division), of a total of 61, of whom 20 proceeded from private study, the remainder from 23 institutions; LL.B., 3 (2 in the first division), of a total of 8, of whom 3 proceeded from private study, the remainder from 3 Colleges; B.Sc., 6 (1 in the first division), out of 11, of whom 3 proceeded from private study, the remainder from 4 Colleges. In all, 45 Degrees taken by Students of this College, out of a total of 134 conferred on Students from 33 institutions, and from private study; so that just one-third of the whole number of Degrees conferred by the University of London during the past year were obtained by Students of University College.

At the First Examination for the Degree of M.B., out of 34 who passed from 7 institutions, 18 proceeded from University College, of whom 6 were in the first division.

At the Preliminary Scientific M.B. Examination, out of a total of 34 who passed from 12 institutions, there were 9 Students of the College, of whom 3 were in the First Divison.

At the First Examination for the Degree of B.A., out of 102 who passed, 43 proceeded from private study, the remainder from 28 institutions, 11 being Students of the College, all of whom were in the First Division.

At the First B.Sc. Examination, out of 10 who passed from 4 institutions, 6 were Students of this College, of whom 4 were in the First Division.

At the First LL.B. Examination in January 1871, out of 23 Candidates who passed, 17 proceeded from private study, and the remainder from 4 institutions, 4 being Students of this College.

Four hundred and eleven Students passed the Matriculation Examination, 278 in June 1870, and 133 in January 1871. Of these, 102 proceeded from private tuition; of the remaining 309, from 119 institutions and Schools, 36, including 13 from the School, were from University College; of these, 26 passed at the June Examination, of whom 9 passed in Honours, 6 of them being pupils in the School, and 12, including 5 from the School, in the First Division; of the 10 from the College who matriculated in January 1871, 1, who was from the School, passed in Honours, and 5, 1 of whom was from the School, in the First Division.

The Honours obtained by Students and Pupils of the College at the University Examinations were as follows:—

At the M.D. Examination:—Mr. Wm. Richard Gowers obtained the Gold Medal, and Mr. Frederick Thomas Roberts obtained the number of marks qualifying for the Medal.

At the Second M.B. Examination:—At the Examination for Honours in Medicine, Mr. James Pearson Irvine obtained the second place, and a Gold Medal, with the number of marks qualifying for the Scholarship; Mr. Richard Lawton Roberts gained the third place in the First Class; Mr. Charles Henry Carter and Mr. Richard Thos. Smith were bracketed equal and alone in the Third Class. At the Examination for Honours in Midwifery, Mr. Charles Henry Carter was placed fifth in the First Class; Mr. J. P. Irvine first in the Second Class; and Mr. R. T. Smith second in the Third Class. At the Examination for Honours in Forensic Medicine, Mr. J. P. Irvine obtained the first place in the Second Class; and Mr. C. H. Carter the first place in the Third Class.

At the First M.B. Examination:—At the Examination for Honours in Anatomy, Mr. Henry James Benham gained the first place in the First Class, the Exhibition of £40 per annum, tenable for two years, and a Gold Medal; and Mr. W. S. Greenfield the first place in the Second Class. At the Examination for Honours in Physiology, Histology, and Comparative Anatomy, Mr. H. J. Benham stood first in the First Class, and obtained a Gold Medal; Mr. Sidney Coupland gained the second place in the First Class; and Mr. W. S. Greenfield stood alone in the Second Class. At the Examination for Honours in Organic Chemistry and Materia Medica and Pharmaceutical Chemistry, Mr. Charles Atkinson Nankivell obtained the first place in the First Class, the Exhibition of £40 per annum, tenable for two years, and a Gold Medal; Mr. W. S. Greenfield was placed second in the First Class; and Mr. Sidney Coupland and Mr. H. J. Benham were first and second respectively in the Second Class.

At the B.S. Examination for Honours, Mr. C. H. Carter and Mr. Parker Rushton were bracketed equal in the Second Class.

At the Preliminary Scientific M.B. Examination:—At the Examination for Honours in Botany, Mr. Thomas Edwin Maclean obtained the first place and the Exhibition of £40 per annum, tenable for two

years. At the Examination for Honours in Zoology, Mr. Edward Wackerbarth was placed alone in the Second Class. At the Examination for Honours in Chemistry, Mr. P. H. Carpenter (s)* was placed second in the Second Class, and Mr. Thomas King Rogers fourth in the Third Class.

At the Second LL.B. Examination for Honours in Common Law and Equity, Mr. James Bourne Benson obtained the first place, and the Scholarship of £50 per annum, tenable for two years; and Mr. Seward W. Brice was placed alone in the Second Class.

At the First LL.B. Examination for Honours in Jurisprudence and Roman Law, Mr. E. E. F. Griffiths and Mr. H. N. Benjamin (s) were placed first and fourth respectively in the Third Class.

At the Second B.A. Examination:—At the Examination for Honours in Classics, Mr. James Fison was placed second in the First Class, and Mr. Hugh Williams first in the Second Class. At the Examination for Honours in Logic and Moral Philosophy, Mr. James Fison and Mr. J. W. Lord were bracketed equal in the First Class, and obtained each a moiety of the Scholarship of £50 per annum, tenable for three years; Mr. F. Wilkins Aveling was placed second in the Second Class; and Mr. C. D. Badland and Mr. Frederic Chapple first and second respectively in the Third Class. At the Examination for Honours in Animal Physiology, Mr. J. W. Lord and Mr. C. Henry Waterhouse gained the second and third places respectively in the First Class; and Mr. F. Chapple the second in the Second Class.

At the First B.A. Examination:—At the Examination for Honours in Latin, Mr. E. A. Sonnenschein (s), Mr. Charles Parsons, and Mr. E. M. Lynch (s) obtained the third, fifth, and seventh places respectively in the First Class; and Mr. J. T. Sale was placed first in the Second Class. At the Examination for Honours in English, Mr. Charles Parsons obtained the first place, and the Exhibition of £30, tenable for two years; and Mr. J. N. Keynes was placed second in the First Class; Mr. E. M. Lynch (s) and Mr. A. de Mattos Mocatta (s) were placed first and third respectively in the Second Class. At the Examination for Honours in French, Mr. A. de Mattos Mocatta (s) obtained the first place and the prize; Mr. E. C. Foà (s) was placed fourth in the First Class; Mr. E. M. Lynch (s) third in the Second Class; and Mr. D. Agate alone in the Third Class. At the Examination for Honours in German, Mr. E. A. Sonnenschein (s) obtained the second place in the Second Class; and Mr. Charles Parsons stood alone in the Third Class.

At the Second B.Sc.:—At the Examination for Honours in Chemistry, Mr. Henry Newell Martin was placed second in the First Class. At the Examination for Honours in Geology and Palæontology, Mr. Robert Davies Roberts alone passed, and obtained the Scholarship of £50 per annum, tenable for two years; and at the Examination for Honours in Zoology, Mr. Henry Newell Martin obtained the first place, and the Scholarship of £50 per annum, tenable for two years; and Mr. E. Bibbins Aveling was placed second in the First Class, and obtained the number of marks qualifying for the Scholarship.

At the First B.Sc.:—At the Examination for Honours in Mathematics and Mechanical Philosophy, Mr. Robert Forsyth Scott was placed alone in the Second Class.

At the Matriculation Examination in June 1870, Mr. Frederick Wm. Frankland (s) obtained the second place in Honours, and the Exhibition of £20 per annum, tenable for two years; and Mr. H. G.

* (s) placed after a name indicates that the Student has been, or was at the time of the examination, a pupil in the School.

Willis was placed sixth, and obtained the number of marks qualifying for a prize; while Mr. L. E. Pyke (s), Mr. E. H. Keed (s), Mr. E. H. Lazarus (s), Mr. P. V. Smith, Mr. J. N. Jonas (s), Mr. J. H. Wilson (s), Mr. J. W. Thompson (s), Mr. J. H. Greenfield (s), and Mr. G. S. Briggs obtained the tenth, eleventh, thirteenth, twenty-sixth, thirty-second, thirty-fifth, forty-fifth, sixty-fifth, and sixty-eighth places respectively, the total number in the Honours division being seventy-one.

At the Matriculation Examination in January 1871, Mr. Benjamin Jas. Leverson (s) obtained the first place, and the Exhibition of £30 per annum tenable for two years.

Of the distinctions gained by Students of the School and College in other examinations the following may be mentioned:—

In the University of Oxford, Mr. E. A. Sonnenschein (s) gained an open Classical Scholarship of £80 per annum, tenable for five years, at University College.

In the University of Cambridge, Mr. J. W. Lord obtained a Mathematical Scholarship of £70 a year at Trinity College.

At the Royal School of Mines, in July 1870, Mr. Edward Dillon (s) obtained the Diploma of Associate in Metallurgy, and Mr. R. W. Atkinson (s), the Royal Scholarship of £25.

At the Royal College of Science, Dublin, in July 1870, Mr. P. S. Abraham (s) gained the Diplomas of Associate in the branches of Mining and Manufactures; First Prizes in Applied Chemistry, Geology, and Mineralogy; Second Prizes in Mining and Assaying.

At the open Competition for the India Civil Service, in May 1870, Mr. Ebenezer James Sewell (s) and Mr. Charles Walter Bolton (s) were among the forty successful Candidates.

In the Institution of Civil Engineers, the Miller Essay Prize was awarded, in July 1870, to Mr. Sidney Preston (s).

FACULTY OF SCIENCE.

The most important academical event during the past year has been the institution of a new Faculty, which marks a distinct stage in the development of the College, corresponding to the progress of public opinion in reference to the objects of the higher education, the effect of which is seen not only in the University of London, but also in the older academical institutions of the country.

This step was not taken without long and careful consideration both by the Senate and by the Council. The former body appointed a Committee to examine the question in all its bearings, and to work out the details of the proposed scheme; and the Report of the Committee, having been adopted by the Senate, was sent up to the Council. The Committee to which the Council referred this Report, after several meetings, resolved to recommend the carrying out of the plan, with a few modifications; and this recommendation was adopted by the Council.

The objects aimed at in the institution of the Faculty of Science are clearly set forth in the following extracts from a statement prefixed to the first Prospectus of the Faculty:—

"The Faculty of Science has been instituted to bring into full light the actual extent of the scientific teaching in University College, and to meet, consistently with sound educational principles, the growing demand for instruction in Science."

"In University College itself the number of Students seeking a broad scientific training, or pursuing special scientific studies, has gone

on steadily increasing; while in the University of London and elsewhere, Degrees in Science, both general and special, have been conferred for some years past. The importance, also, of Science as a preparation for industrial pursuits is now generally acknowledged, as appears in the efforts that have been made of late years to supply scientific instruction in so-called technical schools."

"The main principle represented by the new Faculty is, that science should first of all be cultivated for its own sake, and that even where there is a practical object in view, a broad foundation should be laid of general scientific training. It is believed that the habits of thought thus engendered are the first conditions of all true advance, either in scientific discovery or in practical invention. A second principle is, that the pursuit of Science should not be divorced from literary culture; and this the Faculty, from its position in University College, is specially enabled to uphold. As regards the interpretation of the word Science, it only remains to add that this is taken in no narrow sense. Certain subjects are included which lie out of the sphere of Natural Science, as commonly understood, but none that do not admit of a strictly scientific treatment."

The inaugural Lecture of the new Faculty was delivered on Oct. 4th, 1870, by Prof. Williamson, its first Dean, who, in an able discourse, amplified and illustrated the principles laid down in the last of the foregoing passages. The Lecture was subsequently printed, and has had an extensive circulation.

PROFESSORSHIPS.

The Council have to report an unusually large number of changes in the Professorial body, and the loss of some eminent members of it.

Dr. Hirst, on being appointed Assistant-Registrar of the University of London, resigned the Chair of Mathematics at the close of last Session, to the great regret of the Council and of his colleagues in the Senate. He had fully maintained the reputation of the Chair, which had for many years been occupied by a most distinguished mathematician, Prof. De Morgan, and the Classes flourished under his care; but he found his work too heavy and incessant either to leave him time for original investigation or to be compatible with the maintenance of his health. Thus he was reluctantly induced to terminate his official connexion with the College, and to devote himself to work of a different kind.

Dr. Olaus Henrici, of the University of Heidelberg, who had acquired a high reputation in Germany for his profound and extensive knowledge of Mathematics, was appointed to succeed Prof. Hirst, whose assistant he had been since the beginning of the Session, and of whose Classes he had had the entire charge since the Easter Vacation, in consequence of Dr. Hirst's illness.

Another resignation, attributable to causes similar to those which deprived the College of Dr. Hirst's services, was that of Prof. Michael Foster, who, having accepted the newly instituted office of Praelector in Physiology in Trinity College, Cambridge, resigned the Professorship of Practical Physiology and Histology in this College. The appointment at Cambridge was offered to him in a way which proves the high estimation in which he is held as a man of science, and of which this College, where he received his education from boyhood to manhood, may justly be proud.

The vacancy thus created has also been filled in a most satisfactory manner by the appointment of Dr. Burdon Sanderson, F.R.S., whose

reputation as a scientific physiologist is well known, especially in connexion with the Medical Department of the Privy Council. It may here be mentioned that some recent changes in the Regulations of the University of London and of the Royal College of Surgeons, which render obligatory upon all Medical Students the study of Practical Physiology, have given great additional importance to this Chair, and have necessitated modifications in the curriculum of medical studies. The Council have already made provision for these altered circumstances, by fitting up the larger and more commodious Class-room and Laboratory for the Students of Practical Physiology and Histology, to which reference was made in their last Report. Additional arrangements for the same purpose will probably be required; and it is satisfactory to know that on these subjects the Council will have the advantage of consulting so able and eminent a man as Dr. Sanderson.

It was mentioned in the Council's last Report that the successor to Dr. George Harley in the Professorship of Medical Jurisprudence had not then been appointed, but that steps were being taken to fill the vacancy before the beginning of the Summer Session. Accordingly, soon after the date of that Report, Dr. Henry Maudsley, a Fellow of the College, and one of the most distinguished of its former Students, was appointed to the Professorship, and entered upon its duties in May.

The last event to be mentioned under this head is the vacancy occasioned shortly before the beginning of the present Session by the sudden resignation of the Chair of Applied Mathematics and Mechanics by Mr. B. T. Moore. The Council regret that Mr. Moore's resignation, which was not in accordance with the provisions of the Bye-Laws on this subject, has had an injurious influence upon the Classes of Applied Mathematics and Mechanics, although temporary arrangements were at once made for carrying on one of the Classes thus left unprovided with a Teacher. The vacancy was advertised in the usual way; but the Council regret to report that it has not yet been found possible to appoint a Professor to this important Chair. The Council will, however, spare no exertion that may be required to enable them to make a satisfactory appointment before the end of the Session.

TUESDAY EVENING LECTURES.

Six of these Lectures were delivered during Session 1869–70, the Lecturers being Dr. W. B. Carpenter, F.R.S., Prof. Morley, Prof. Seeley, W. R. S. Ralston, Esq. (who most kindly undertook, at the shortest possible notice, to supply the place of Sir E. S. Creasy, when a sudden attack of illness rendered it impossible for that gentleman to fulfil his engagement to lecture), Mr. E. J. Poynter, A.R.A., and Prof. Cassal.

SLADE BEQUEST.

The expectations in reference to this subject, expressed in the Council's last Report, have, the Council are happy to report, been fully realized. The scheme therein referred to as then under the consideration of Mr. Slade's executors and of the Council, has been definitely settled; and the following is a brief outline of its principal provisions:—

A sum of £10,000 Consols has been transferred by the executors to the College for the endowment of six Slade Scholarships of £50 each, tenable for three years, to be awarded to Students of the College for proficiency in drawing, painting, and sculpture.

Another sum of £7000 Consols has been similarly transferred, for the endowment of the Slade Professorship of Fine Art in the College.

Lastly, the executors have paid to the Council £5000 sterling as a contribution to the expense of erecting suitable buildings for the Schools of Fine Art, including a spacious theatre for drawing from the life, and studios for the use of the Professor and his Assistants.

All these arrangements have been fully defined and secured by three several trust deeds, to which Mr. Slade's executors and the College are the parties.

The plans for the new buildings, which it was from the first determined to erect as a part of the north wing of the College, were prepared by Professor Lewis, and were referred to a Committee of the Council, by whom they have been most carefully examined. In doing this they enjoyed the advantage of consultation with some eminent artists who have taken much interest in the subject, and whose advice has been of great practical utility. The execution of the plans as ultimately approved was estimated to cost between £6000 and £7000; and as the College had only one small fund which the Council thought they would be justified in applying to this purpose, a difficulty presented itself at the outset, which might have delayed the commencement of the work. In this emergency, two gentlemen, whose liberality in support of the College has been displayed on former occasions, came forward to relieve the Council from its embarrassment by their generosity: Mr. Samuel Sharpe contributing £600 to this new Building Fund, and Mr. J. Pemberton Heywood, £500. Thus the Council were enabled to enter into a contract with Messrs. Trollope to erect the buildings, which were at once begun, have been rapidly carried forward, and will be ready for occupation at the commencement of the next Session.

It is believed that these buildings will prove to be in all respects admirably adapted to the purposes for which they have been designed; and that the Drawing Theatre especially will be one of the finest in Europe, and certainly superior to any thing of the kind in this country. The windows of this and of all the other working rooms have a northerly aspect, a point of very great importance; and much consideration has been bestowed upon the arrangement and disposition of all the inlets of light. The buildings and their approaches have also been carefully designed in such a way as to make due provision for the admission of Ladies as Students of the Fine-Art School, should it hereafter be found expedient to do so. The structural arrangements will render it easy to keep the Ladies' Classes quite distinct from the others, if it should be thought desirable to maintain such separation; and in any case, there will be entrances reserved for the exclusive use of the Ladies.

The serious task of selecting a Professor competent to inaugurate this new School of Art, and to aid the Council in arranging the scheme of study, still remains to be accomplished. This task is the more arduous, since it relates to matters in which this College has no previous experience to guide it; and under these circumstances it can hardly be expected that a perfect and definite scheme will at once be produced. Any scheme that may be adopted in the first instance must be regarded as tentative and subject to change; but the Council are encouraged to hope for a fair measure even of immediate success, by the knowledge that they will be cheerfully and zealously aided in laying the foundations of the Fine-Art School by some of the most eminent artists of this country. Relying upon their cooperation, the Council confidently trust that all needful arrangements will be made

for the opening of the Classes of the Art Department early in the next Session.

The Council cannot leave this subject without once more recording their sense of the obligation under which the College lies to Mr. Slade's executors for the manner in which they have carried out the trusts of Mr. Slade's will, and especially for the large sum which they have contributed to the Building Fund. This was a matter entirely within their own discretion: they had full power either to give or to withhold this most important assistance; and the College is all the more indebted to them for the way in which they have exercised their discretion. The Council have great satisfaction in nominating these four gentlemen for election to-day as Life-Governors; and the Members will, no doubt, gladly concur in this expression of thanks to Messrs. Collambell, Fisher, Franks, and Wadeson.

The thanks of the Members are due also to Mr. Sharpe and Mr. J. P. Heywood for their generosity; and to Professors Marshall and Lewis for a valuable and suggestive Report on the Fine-Art School.

LADIES' CLASSES HELD AT THE COLLEGE.

In their last Report the Council informed the Members that two of these Classes had met in the College during the then present Session, and that no inconvenience had been occasioned by the experiment, nor any interference with the ordinary business of the College. This satisfactory state of things continued until the end of the Session, and the Council therefore considered that it would be expedient to comply with an application made to them by the Association under whose auspices these Classes were established, and supported by all the Professors engaged in teaching them, that not only should the Classes of Chemistry and of Physics continue to meet in the College during this Session, but that two additional Classes, one for the study of the English Language, the other for that of French, should enjoy the same privilege. But the Council thought it right to require a moderate payment from the Association for the accommodation thus afforded, and this was at once acceded to.

Judging from the experience of the past, the Council believe that there will be no practical difficulty in continuing and extending the plan thus successfully begun.

THE GRAVES LIBRARY.

The Council have again the pleasure to report that large and most valuable additions have been made to the Library during the past year.

The most important of these was bequeathed to the College by Mr. J. T. Graves, formerly Professor of Jurisprudence here, who by his will, dated March 26th, 1870, devised "all his mathematical, astronomical, and physical books and papers to University College, London, in remembrance of his former connexion with that Institution." Mr. Graves, who was himself a distinguished mathematician, had devoted his leisure for many years chiefly to the making of this collection, which, in the opinion of competent judges, became one of the most complete and valuable private libraries of the kind ever formed. It comprises upwards of 10,000 volumes, most of which are splendidly bound, 4577 pamphlets arranged in 189 boxes, and a considerable number of interesting MSS. Most of the earliest printed works on mathematics and physics, many of which are extremely rare, are in the collection, of which moreover two catalogues have been presented to

the College, one in three volumes, in accordance with the testator's directions; the other, a much more full and complete compilation, is a gift from his brother and executor, the Rev. R. P. Graves, who, in the execution of his trust has on every occasion displayed an anxious desire to give to the College the fullest possible benefit of his brother's bequest, and has with that object devoted much personal attention to the business, involving a large amount of trouble. The best thanks of the College are due to him for his kindness and liberality; and the Council have great pleasure in testifying their sense of the value of the gift of the Library, and of their obligations to Mr. R. P. Graves, by nominating his brother's widow, Mrs. Amelia Graves, and himself to be Life Governors of the College.

It will be satisfactory to the Members to learn that in reply to a Memorial, founded on the provisions of the Statute, 39th Geo. III. c. 73, presented by the Council to the Lords of H.M. Treasury, soliciting a remission of the Legacy Duty on the value of Mr. Graves's bequest, their Lordships were pleased to direct that the claim for the payment of the duty, preferred by the officers of the Inland Revenue Department, should not be pressed.

Considerable expense has been incurred in making suitable cases for the reception of the Graves Library, which has been placed in the South Library, where also that portion of the Morris Library which has already been received is deposited.

THE MORRISON CHINESE LIBRARY.

The Council have to report that they have engaged the services of the Rev. J. Summers, Professor of Chinese at King's College, London, to prepare a complete catalogue of this collection, which has for many years belonged to the College, but in an almost unavailable condition for want of such a means of ascertaining its contents. Prof. Summers reports that it is, in his judgment, the most extensive and valuable Chinese Library in this country, not excepting even that belonging to the British Museum, or that deposited in the India Office. In consequence of his representations, the Council have determined to have the books suitably bound, so that they may be protected from injury; and Mr. Samuel Sharpe, with his accustomed liberality, has presented the College with the sum of £100 towards defraying the expense of this work, which is now being executed under the superintendence of Prof. Summers.

The Chinese Collection has been removed from the General Library, where room was much wanted, to an apartment adjoining the South Library, fitted up for the purpose.

The Council trust that the steps thus taken may prove of service by making this important Library more easily and generally available to persons interested in Chinese Literature; and they take this opportunity of making it known that they are desirous of giving every reasonable facility to Students of that Literature who may wish to consult the Morrison Library.

DONATIONS TO THE LIBRARIES.

The chief of these is a collection of between 1000 and 1200 volumes of theological works, presented by a former Student of the College, Mr. R. M. D. Littler, to whose father, the late Rev. Robert Littler, they belonged.

The other principal Donors of books during the past year are the

following:—The Lords Commissioners of H.M. Treasury, the Royal Society, the Royal Astronomical Society, the Royal Society of Literature, the Royal Asiatic Society, the Royal Institution of Great Britain, the Royal Medical and Chirurgical Society, the Royal Institute of British Architects, the Society of Antiquaries, the Pathological Society, the Asiatic Society of Bengal, the Statistical Society, the Zoological Society, the Obstetrical Society, the Pharmaceutical Society, the Smithsonian Institution, Sir J.F. Davis, Bart., Sir Edward S. Creasy, J. N. Hancock, Esq., LL.D., Samuel Sharpe, Esq., W. Cave Thomas, Esq., T. R. Lewis, Esq., M.B., H. C. White, Esq., H. Breen, Esq., Dr. Fort, Professors W. C. Rives, W. Wright, Bunnell Lewis, Morley, Maudsley, Corfield, R. Ellis, and Hoppus; Christopher Heath, Esq., and Max Cullinan, Esq., M.A.

PEEL MEMORIAL FUND.

The income of this fund in 1870 was expended in making grants to three Institutions, viz. the Islington Youth's Institute, the Willenhall Literary Institute, and the York Institute of Popular Science and Literature.

The Balance of the Dividends of the Fund now in hand is £58 16*s.* 1*d.*, which will be expended in the usual way in the course of the present year.

HOSPITAL.

The total receipts for the year ending October 31st, 1870, including Legacies, Debenture Bonds for £3500 paid off, and the balance from the previous year, amounted to £16,631 0*s.* 6*d.*; the gross expenditure was £15,633 3*s.*, consisting of the following principal items:—£4952 10*s.* 3*d.* on account of debts of former years, £6580 12*s.* 9*d.* for expenses of the current year, repayment of banker's loan £3000, and investments £1100.

The balance at the end of the financial year was £997 17*s.* 6*d.*, and the debt (exclusive of the mortgage loan of £3000) amounted to £3877 6*s.* 2*d.*, being about £4050 less than on the 31st of October, 1869, a diminution effected chiefly by the above-mentioned reduction of capital, caused by the paying off of the Debenture Bonds.

The amount subscribed at the Dinner on February 23rd, 1870, when Alderman Sir J. C. Lawrence, Bart., M.P., kindly presided, was £1410 16*s.*

The Festival in aid of the Funds of the Hospital will this year be held at Willis's Rooms, on Wednesday, April 26th, when Dr. Parkes, F.R.S., Emeritus Professor of the College, and formerly Physician to the Hospital, will take the Chair.

In the Medical Staff the following changes have taken place during the year:—

Mr. George V. Poore, whose appointment to the post of Resident Medical Officer was recorded in the last Report, resigned that office after he had held it less than a year, in consequence of his being selected as the Medical Attendant of H.R.H. Prince Leopold. Mr. Langmore discharged the duties of Resident Medical Officer in a highly satisfactory manner until the appointment of Mr. John Davies Thomas, M.B., as Mr. Poore's successor.

An important addition has been made to the Staff by the institution of the office of Surgical Registrar, whose chief duty will be to keep and to render available for purposes of instruction the records of the surgical cases treated in the Hospital. He will also have the superin-

tendence of the younger assistants to the Surgeons, and will aid the latter in giving clinical instruction. The appointment has been conferred upon Mr. Marcus Beck, a former Student of the College, who has highly distinguished himself both in the College and in the University of London, of which he is a Master in Surgery and Bachelor in Medicine.

The increasing importance attached by the Medical examining and licensing bodies to the practical knowledge of the Candidates for their Diplomas, has rendered it necessary to extend the opportunities afforded at the Hospital for acquiring such knowledge; and this has led to an increase in the number of Assistant Medical Officers, and to the institution of a new office of the same kind, that of Ward Clerks, whose duties will be performed in the Surgical Wards.

It is in contemplation to still further strengthen the Staff by the appointment of an Assistant Obstetric Physician, and of an Assistant Teacher of Clinical Medicine, whose business it will be, under the direction of the Holme Professor of Clinical Medicine, to instruct the Students in the elements of physical diagnosis by means of auscultation, percussion, palpation, &c.

Dr. Tilbury Fox, whose appointment as Physician to the Skin Department was mentioned in the last Report, has for several months been engaged, with the sanction of the Hospital Committee, in raising funds to provide a complete set of Medicinal Baths for the use, in the first instance, of patients suffering from diseases of the skin. Dr. Fox's efforts have been so successful that the Hospital Committee are about to enter into a contract for the erection of the Baths for the sum of £1310; and thus it is believed a most valuable addition will be made to the means of cure now at the disposal of the Physician to the Skin Department, and the Baths will undoubtedly be more extensive and complete than any hitherto existing in the metropolis.

ATTENDANCE OF THE MEMBERS OF COUNCIL,

From February 9th 1870 to February 8th 1871 inclusive.

MEMBERS OF COUNCIL.	Council. 14 Meetings.	Committee of Management. 22 Meetings.	Special Committees.	Senate. 7 Meetings.	Hospital Committees. 58 Meetings.	Total.
